

The Maude English Pedigree, in my line anyway, is reasonably well documented back to the early 16th Century.

Most people researching the Maude line feel that the family started with the arrival in England of a soldier named Monte Alto. He was a member of William the Conqueror's group and arrived in 1066 and participated in the Battle of Hastings. Thought to be an Italian mercenary (adventurer) living in Normandy, he deported himself well, and was rewarded with land holdings in what is now Yorkshire. These facts are documented in many places. The name was Anglicized to Montault, Monaut, and finally Maud or Maude.

Here is a document passed on to me by my Mother (Renee), which charts the family from the birth of Bryan Maude (1634-1688), to my great grandfather Arthur Hay Maude (1837-1919).
